Date: _____

Dear Sir/Madam,

Name of development:

Application No:

I write to object to the above planning application and my reasons are as follows:

Damage to Landscape Character.

The rural charm of the North Devon landscape is the natural asset which attracts thousands of visitors to our area and therefore must be protected. Indeed the development would compromise the extensive scenic views for which the area is renowned.

Economic Damage

Many employment opportunities in this area are from the tourism industry. Evidence suggests that such developments will deter visitors from coming to this area. A drop of visitor numbers would be a real threat to local employment and future investment.

Visual Impact

The proposed turbines would be visible for miles. I urge the Council to protect this precious local rural landscape and reject this application especially with Fullabrook having been approved and to quote Malcolm Wicks, Minister of State for Energy "Fullabrook Down has the potential to make nearly double North Devon District Council's target of 36MW of renewable energy."

Yours sincerely
